DSA Problems Solved

CAREER OBJECTIVE

B.Tech AI & Data Science graduate (2026) with hands-on backend development experience, seeking a Software Developer role at Zoho to build scalable, production-grade applications. Skilled in Python, Java, REST APIs, and SQL, with proven experience shipping code in Agile teams and reducing system latency by 40%.

TECHNICAL SKILLS

Languages: Python, Java, SQL, C

Backend & Database: REST API, MySQL, Schema Design, SMTP, MVC Architecture, FastAPI, Flask

ML / AI & GenAI: Scikit-learn, Pandas, NumPy, LangChain, RAG, Hugging Face, Prompt Engineering

Tools & Cloud: Git, GitHub, VS Code, Docker, MLflow, AWS, GCP, Agile/Scrum

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

WORK EXPERIENCE

AI Backend Developer Intern — KnowX Innovations Pvt. Ltd.

Sep 2025 – Nov 2025

- Built a production RAG pipeline (LangChain) for an AI-powered Resume Enhancer, reducing response latency by ~40%.
- Developed end-to-end ML pipelines (Scikit-learn, Pandas, Joblib) covering data ingestion, preprocessing, training, and deployment.
- Engineered an automated SMTP email notification system, eliminating manual work across 500+ user interactions.
- Shipped production-grade Python code in an Agile team through sprint planning, code reviews, and iterative deployments.

PROJECTS

Employee Management API — Backend REST API (FastAPI, SQLAlchemy, Render)

- Built a complete CRUD-based backend service with real-time create, read, update, and delete operations and auto-generated Swagger documentation, deployed live on Render.

RAG-based PDF Q&A Assistant — LangChain, FAISS, Hugging Face, Groq LLM

- Built a retrieval-augmented generation chatbot answering questions from uploaded PDFs, using FAISS for vector search and Groq's Llama 3.1 for real-time answer generation.

Crop Yield Predictor — Python, Scikit-learn, XGBoost (~88% accuracy)

- Built an ML backend using Random Forest/XGBoost to forecast vegetable prices, covering the full pipeline from data ingestion to model deployment.

Student Performance Predictor — Python, Scikit-learn, Streamlit (~90% accuracy)

- Built an ML model predicting academic performance from study patterns and attendance, deployed as a Streamlit dashboard.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2022 – 2026

M. Kumarasamy College of Engineering

Diploma in Mechanical Engineering (Sandwich Program — pre-B.Tech)

2022

Nachimuthu Polytechnic College — 79%

CERTIFICATIONS & ACHIEVEMENTS

- 150+ DSA problems solved on LeetCode & HackerRank
- Intermediate Machine Learning, Intro to Deep Learning, Feature Engineering, Pandas — Kaggle
- Data Analysis with Python, Data Science Tools — IBM
- Industry 4.0 & Industrial IoT (Elite) — NPTEL, IIT Kharagpur

KEY STRENGTHS

Problem Solving • Clean Code Practices • Agile Collaboration • Quick Learner • Ownership & Accountability • Communication

Languages Known: Tamil (Native), English (Professional Working Proficiency)
